Again, Dom Lucre, Breaker of Narratives, exposes a pretentious leftist politician – this time, Hillary Clinton. But he’s not talking about her keeping a private email server and keeping classified communications on it. Or effectively destroying the server and every device ever logged into it after she was no longer Secretary of State. Instead, Dom Lucre concentrates on a more recent crime, centered on the Caribbean country of Haiti.

The career of Hillary Clinton

Hillary Clinton needs no introduction. She worked as committee counsel to the House Judiciary Committee when Rep. Peter Rodino (D-N.J.) ran it. In that capacity she handled the consideration of Articles of Impeachment against President Richard M. Nixon. The Cato Institute says that, while reports of lead counsel Jerry Zeifman having fired Hillary Clinton from this job are exaggerated, he *would* have fired her if he’d had the authority. Tellingly, he declined to hire her onto the permanent staff of that Committee after it finished its work. Reporter Dan Calabrese gave further unflattering details of her activities relating to the impeachment.

To be more specific, she led a cabal to deny President Nixon any right of counsel. She did this to prevent any hypothetical counsel from cross-examining E. Howard Hunt, planner of the Watergate break-in. And she did *that* because Hunt could testify to some nefarious activities by John F. Kennedy that were far worse than anything for which Richard Nixon would ever have faced charges.

Given that, one can well believe her keeping an email server and directing all communications to a private email account. But ideology does not appear to drive her today. She is a venal shakedown artist who takes bribes, then reneges on the agreements thus

made. The Keystone XL Pipeline project is a case in point.

The case that drew Dom Lucre's ire involved someone running a child abduction ring specializing in children from Haiti.

The thread

Herewith the twenty-tweet thread containing these explosive allegations.

THREAD: Proof Hillary Clinton deserves a Nobel Peace Prize for what the Clinton Foundation did to Haiti.

Laura Silsby, former director of The New Life Children's Refuge, is the individual in question. On January 29, 2010, she was arrested attempting to abduct 33 children from Haiti. It has been reported that the majority of these children were not even orphans and had families. pic.twitter.com/0AV8J8v8wm

Upon assuming a prominent role in Haiti, Hillary Clinton reportedly intervened to secure the release of Laura Silsby, who had been detained on charges of human trafficking. Laura's attorney was Jorge Puello Torres, convicted sex trafficker

Organ harvesting is a very lucrative business, it is intensified when you consider melanated organs, which cost more than organs without it. Melanin currently costs more than gold, silver, platinum, palladium rhodium and coltan combined so Haiti had value: <https://t.co/ZRJiwt0Sci> pic.twitter.com/qKNHcrmWJ0

The Clintons were behind Haiti global response. The Interim Haiti Recovery Commission (IHRC) was created after the earthquake and Bill Clinton was selected as co-chair, Hillary Clinton was still Secretary of State thus was responsible for channeling USAID relief spending to Haiti pic.twitter.com/L6sAInUG88

"Immediately after the earthquake, the Clintons also collected about \$30 million for Haiti through the Clinton Foundation. From the foundation's taxes, we know that only about 10 percent of funds were spent on charity, so only about \$3 million were spent on Haiti. #MORBLEU pic.twitter.com/8IOb3BII1V

Hillary Clinton raised over \$13 billion with the Clinton-Bush-Haiti Fund of January 16, 2010, she also recruited Hollywood to gain an additional \$57 million in 24 hours with her January 22, 2010 "High Hopes for Haiti Concert." The Clinton/Bush Fund banner is visible. pic.twitter.com/6RPRiyc7f

Hillary Clinton and the Foundation's connection to Jeffrey Epstein and George Soros is concerning but black people globally should be concerned of her admiration of verified racist eugenist Margaret Sanger who created Planned Parenthood to lower the negro population

This was my most requested THREAD and it took around 2 months to complete. If you would like to donate for my independent work I will add the link below. If I ever get Clinton'd you will receive a refund on your donations. Thank you everyone!

Notice that two of the links in the tweet texts come from the Wayback Machine. Obviously Dom Lucre fears alteration of the originals.

In case anyone hasn't figured this out: *To Clinton* means to murder someone and make the death look like suicide. It is the sort of death Tara Reade feared defenders of Joe Biden would mete out to her. That is why she sought refuge in Russia.

In the thread, Dom Lucre mentions another account, calling itself We Are Morbleu. MORBLEU is an acronym for Mark Our Republic Before Liberals End Us. Dom Lucre appears to be a frequent visitor to that account, which clearly favors Donald Trump and his policies.

Reaction to this thread is overwhelmingly positive, with most users giving unflattering descriptions of Hillary Clinton. One user tweeted another take on Jerry Zeifman's non-rehiring of Clinton onto House Judiciary Committee staff.

Another embedded a 2013 video with might have further evidence in this case, or evidence from a different case. This concerns the shutdown of a State Department investigation into pedophilia.

Analysis

Again, Hillary Clinton needs no introduction. But this thread is new. Anyone who cares to know, knows already that she is a venal shakedown artist. But this Haiti affair is worse than a shakedown. We see her profiting directly from the exploitation of children. That exploitation goes further than kidnap – and includes murder and harvesting of human transplant organs.

The Clinton Foundation lost all its donors when Hillary Clinton failed of election to the Presidency. But she did damage enough to the reputation of America and Americans while Secretary of State. One can only imagine the damage she would have done as President.

Notice also that Dom Lucre credits Donald Trump with highlighting her fraudulent activities after the Haitian Earthquake. According to Lucre, Trump was the only Presidential candidate to do so. That, plus Trump's consistent antiwar policy, are but two of the reasons both Party establishments do not want him to become President again.
