Three evenings ago, a favorite source, Dom Lucre, Breaker of Narratives, dropped a long thread on Barack H. Obama. It covers his questionable associations in Chicago – and a “body count” of his own, though Hillary Clinton’s is higher. The thread even covers his “Certificate of Live Birth,” an equally questionable visit to Pakistan in 1981, and his use of the name “Barry Soetoro.” But more importantly still, it covers how Obama divided America along racial lines – while doing American blacks no favors.

## About Barack Obama

---

Barack Obama, of course, needs no introduction. He held office as President for two terms and was one of the most controversial Presidents America ever had. Obama indelibly put his name on socialized medicine – which he passed under very questionable circumstances. A question arose early as to whether he was even eligible to the office he held. This question arose from two directions:

- Whether his Certificate of Live Birth was even authentic, and if so, whether it established his place of birth, and
- Whether or not he had alienage by reason of his father’s status.

Your editor examined a digital copy of that COLB and still has questions about it, to this day. But even without those questions, the question of parental alienage remains. Simply put, *his father, Barack Hussein Obama Senior, was a British colonial subject* at the time of “Junior”’s birth. Sadly, most people don’t understand why this is important. Your editor explained this eleven years ago. According to Emmerich de Vattel’s Law of Nations, a “natural born citizen” (*without* a hyphen) is one born:

- In the territory of the country in question, or else
- On a diplomatic or military station, or aboard a ship of the navy of the country or flying its flag,

to *two* citizen parents! Barack Obama clearly skated on this rule – as also did then-Vice-President Chester A. Arthur in 1881.

Bear all this in mind, in evaluating what follows.

## The thread

Herewith the twenty-five-tweet thread – from one who looked up to Obama, and therefore expected much from him. Obama disappointed him, as readers will readily see.

THREAD: Proof that Obama is The Greatest President of all Time and Helped Black People More Than Donald Trump.

On June 18, 2008, Larry Sinclair alleged Obama's sexual encounters with other men, including known D.C. politicians and Donald Young, the openly gay choir-director of Jeremy Wright's Trinity United Church of Christ black liberation, which Obama was a member for around 20 years. Who is Barry Soetoro?

Barrack Obama had to submit his personal information under oath when being sworn in as an attorney in the state of Illinois; in his registration, he used the name Barry Soetoro.

Barrack Obama claim he went to Pakistan to visit his mom in 1981. There is no record of Obama ever having had an American passport prior to receiving one after becoming a U.S. senator. If he couldn't enter Pakistan with a US passport, he may have gone using an Indonesian one. However, you can only get one if you are an Indonesian citizen. Under Indonesian law, when a male acknowledges a child as his son, (Obama) he is then considered an Indonesian citizen. [pic.twitter.com/rXbmhGQfTj](https://pic.twitter.com/rXbmhGQfTj)

This is where Bush comes in, Pak Lolo Soetoro was working for the Bushes for almost his entire life through the oil industry, what is even more interesting is the fact that mainstream media confirmed that Bush and Obama are cousins. I looked up to Obama, it hurt me as I watched how he ignored us and continued to push social justice when we were begging for real peace and equality.

Black people got angrier under Obama's presidency and how did he respond? Income in the middle-class Americans' earnings dropped by \$4,300 after his first term.

During Obama: 70% of African-Americans, compared to just 36% of white Americans, felt that racial discrimination is a key reason why blacks have a tougher time getting ahead.

Dom does it again 🔥 Barry was never for the people. I knew that in 07, my Senior year. People would call me all kinds of names and slurs because I didn't back Obama.

I believe Obama divided us so badly that relations between people with different skin colors were set back 50 years! I won't say "race" because we are ONE RACE. The human race. We just have different people groups based on genetics & ancestry. Love the skin you're in!

But at least one user saw the funny side:

I'll say this here too. Barry Soetoro is the greatest President in US history!

Best joke ever.

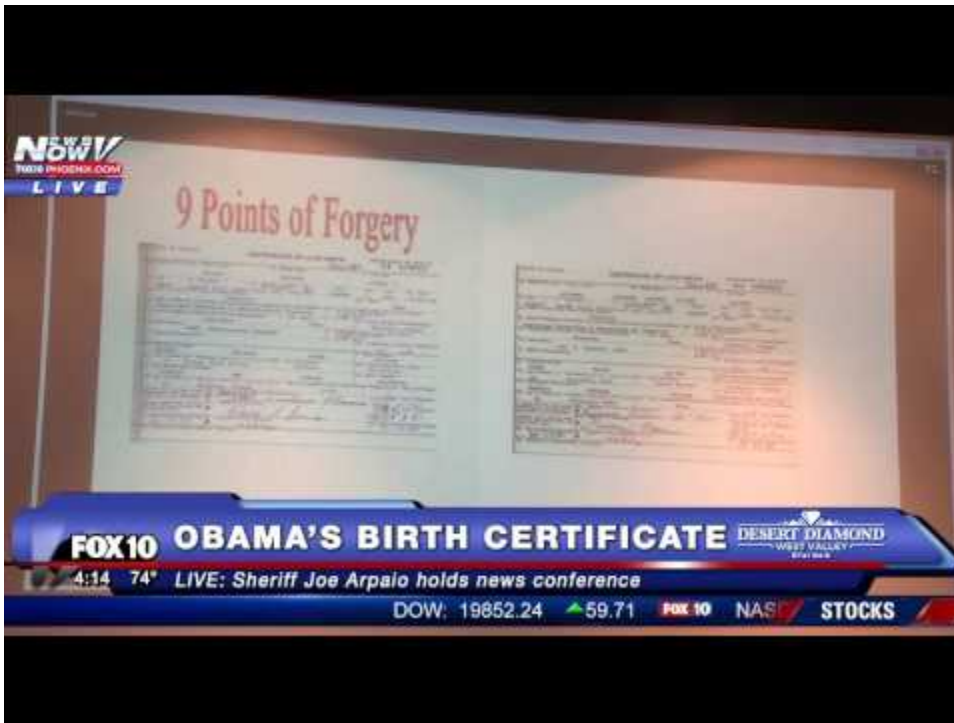

— 🇺🇸 Captain MAGA 🇺🇸 (@RealCaptainMaga) June 1, 2023

One other user told of doing an even more sophisticated analysis than your editor did – and reaching the same conclusion.

I downloaded the birth cert from the gov website when it got released yrs ago & I ran it through a software that would show up the copy & paste pieces. I could remove the inserted pieces & put them in a side panel. I saw it with my own 2 eyes, it's forged <https://t.co/DZT0jBZkKm>

That same user shared this hour-and-seven-minute video by then-Sheriff Joe Arpaio of Maricopa County, Arizona. He investigated the Obama birth certificate along with his "cold case posse."

## Analysis

---

Most of the things Lucre covers – the questionable associations, the convenient deaths, Obama using the name *Barry Soetoro*, and especially the Certificate of Live Birth – are things perhaps enough people would have cited to vote against him, had they known. (Or perhaps not; one cannot underestimate some voters' capacity for casting unwise, ill-informed, ill-considered votes.) They also speak to outright fraud, and raise anew the question of whether he was even eligible to the office.

The “Famous Last Words” of comedienne Joan Rivers, about Michelle Obama being a trans-woman, raise more questions. Where, if that’s true of Mrs. Obama, did their daughters come from?

But the most important and striking reminders in the thread concern Obama’s performance in office. One who pledged to unite rather than divide, divided instead – perhaps as intended.

Lucre is correct about another thing: identity politics has never been a “Republican thing.” Those who routinely try to identify the Republican Party – or at least the “MAGA faction” – with National Socialism, should consider this: why wouldn’t Obama seek genuinely to build a multi-racial coalition, if that kind of identification were at all valid? As Lucre says: that identification was *not* valid, and Obama knew it.
