Vaccine deaths, adverse effects

Recently, a friend of truth, David Knight, reported the deaths of those who have recently received the vaccine and within a very few days they were dead (Proverbs 14:12).

With all of the information that is now available concerning who is behind this criminal conspiracy and what is that is in these untested vaccines, you would think that people would be up in arms by now as well as throwing a whole lot of criminal politicians in jail for their perpetrated fraud upon the very people that they are in fact to serve (Ephesians 4:14).

Here is a look at adverse effects around the world, health professionals balk at vaccination, pharmacist destroys 500 doses intentionally, Romney lays the foundation for the military to push needles into arms and the tragic death of Congressman-elect Letlow, 41, may indicate issues with Fauci's "standard of care," Remdesavir (Leviticus 17:11, 19:19).

Editor's Notes

The video embeds in this article appear from Brighteon.com and Bitchute.com. These are but two of the alternative video platforms and other social media now available. The Advanced Responsive Video Embedder accomplished the embedding.

[Dr. Martin: They Are “Using The Word Vaccine To Sneak This Under Public Health Exemptions” – This Is NOT A Vaccine! \(Video\)](#)

In related news, mainstream and alternative media sources all report governments preferentially making the vaccine available to “favorite” groups. But if Dr. Martin’s allegations are at all correct, then those governments aren’t doing them any favors! Neither, apparently, is the State of Israel.

Rep. Ron Wittman (R-Va.-1st) reports, in a newsletter to constituents, that vaccine requests exceed availability throughout Virginia.

Joseph R. Mercola, D.O., shares [this article](#) describing key reasons for some of the vaccine deaths.
