The Humanitarian Hoax is a deliberate and deceitful tactic of presenting a destructive policy as altruistic. The humanitarian huckster presents himself as a compassionate advocate when in fact he is the disguised enemy.

The Humanitarian Hoax in action

Obama, the humanitarian huckster-in-chief, weakened the United States military for eight years presenting his crippling policies as altruistic when in fact they were designed for destruction. His legacy, the Leftist Democratic Party with its “resistance” movement, is the party of the Humanitarian Hoax attempting to destroy American democracy and replace it with socialism.

In a stunning reversal of military protocols and procedures Barack Obama perpetrated the Humanitarian Hoax on the military. Scheduled to take effect July 1, 2017 Obama’s “Tier Three Transgender Training” materials were presented as compassionate and deeply respectful of the minuscule population of transgender soldiers. In fact these protocols and procedures were designed to weaken the military by making the feelings of a few soldiers more important than combat-readiness, and by placing the needs of individuals over the well-being of their units. Obama’s policies were not misguided they were deliberate.

The mission of the military is unequivocally national defense – the protection of America and her people. The military is one of the only appropriate collectives in a democracy. It is a unique culture with unique rules where collective units, not individuals, are prioritized and where the mission supersedes the men/women who serve. Police departments are another form of appropriate collective in a democracy whose similar mission is national defense at a local and state level. Obama and his leftist Democratic Party are deliberately trying to weaken and undermine American police departments as well.

What socialism means

Obama’s long-term plan for socialism and its cradle-to-grave government control is a political power grab that steals individual rights and replaces them with national government rights. Like any predator the Democratic Party focuses its prey on the short game and disguises its long term objective. Sexual predators do not lure children with vegetables – they offer candy. Political predators do not lure their voters with hard work – they offer them free college, free health care, free food, free housing, free everything – and then the windows close, the doors lock, and the prey is captured and exploited.

Socialism is political candy for Americans who have been indoctrinated to believe that it will provide social justice and income equality. There are no individual rights in socialism – all rights belong to the national government. There are no property rights in socialism – all property belongs to the national government. The only social justice or income equality provided by socialism is that everyone is equally poor and equally exploited.

The appropriate place for a collective in a democracy is the military which is only effective when the mission takes priority over the individual. The leftist Democratic Party is attempting to invert American life by democratizing the military and socializing the society. The Leftist Democratic Party presents itself as America's advocate but is in fact America's enemy.

Who's using whom

The irony of the entire Leftist Humanitarian Hoax designed to destroy American democracy and replace it with socialism is that the Leftist Democratic Party is too arrogant to understand that they are the useful idiots in the larger and more sinister plan of the globalist elite. Socialism with its complete government control is the prerequisite social structure for the globalist elite to internationalize the socialist countries and impose one-world government.

One-world government is the new world order that the globalist elite intend to rule themselves. It is unapologetically described in chilling detail in Lord Bertrand Russell's 1952 book *The Impact of Science on Society*. One-world government is a binary socio-political system of masters and slaves. There is no social justice in one-world government, there is no income equality in one-world government, there are no Leftists or political agitators of any kind in one-world government – only a docile, compliant population of slaves and their rulers.

One-world government is the goal and the underlying motive of the campaign to destroy America from within. American democracy is the single greatest existential threat to one-world government and President Donald Trump is its leader. If the globalist elite are successful in their efforts to weaken the US military, overthrow the US government of President Donald Trump, and transform America into socialism the next step is globalist conquest and the imposition of one-world government.

After 241 years of American freedom the world will be returned to the dystopian existence of masters and slaves because a willfully blind American public were seduced by political candy and followed the Leftists into the awaiting socialist sedan – the windows close, the doors lock, and the prey is captured and enslaved. Game over.
