

3 Questions You Need to Ask About the Experimental Covid Injection

By: Steven Hotze, M.D.

I have warned you to stay as far away from the experimental Covid gene modifying injection as you would a West Texas rattlesnake.

Whenever a medical therapy is being promoted by the pharmaceutical companies, or government health bureaucrats, it seems wise to ask yourself three questions:

- **Is it safe?**
- **Does it work?**
- **Is it necessary?**

So let's answer these questions about the experimental Covid mRNA gene modifying injection that the government health bureaucrats, the corrupt politicians, the paid for propaganda media, Bill Gates, Fauci and the one worlders want to force down our throats.

First, is the experimental gene therapy injection safe? No. It causes the following adverse health consequences.

1. **Autoimmune disease**, where the immune system attacks the cells of the body
2. **Runaway production of the viral spike protein, causing a hyper-inflammatory reaction**, known as an antibody-dependent enhancement reaction, that worsens the infectious disease process, causing a cytokine storm and leading to organ failure or neurological damage
3. **An increased risk of arterial inflammation and blood clotting**
4. **A disruption of the normal protein-producing abilities of the cells**, which could lead to hormone imbalances, infertility and heart, liver and neurological diseases, among others
5. **The development of Prion disease**, where the spike protein causes abnormal folding of brain cell proteins, leading to neurodegenerative disorders, such as Creutzfeldt-Jakob disease (CJD), that is a spongiform encephalopathy, similar to mad cow disease, Alzheimer's disease, dementia, and amyotrophic lateral sclerosis (ALS)
6. **Damage to the ovaries and placenta where the spike proteins concentrate**, leading to infertility and miscarriages
7. **Incorporation of the genetic modification of the mRNA into the DNA by means of reverse transcriptase**, causing the genetic trait of producing the spike protein to be passed on to future offspring

<https://crtxnews.com/3-questions-you-need-to-ask-about-the-experimental-covid-injection/>

8. **Transmission of the spike protein from vaccinated individuals to those who are unvaccinated**, leading to health problems in the unvaccinated
9. **Increased risk of cancer**

The experimental COVID-19 mRNA gene modification injection neither provides immunity nor prevents transmission of the virus. That is why the CDC recommends that individuals who receive it should still wear masks and social distance.

This experimental injection has already caused tens of thousands of deaths and millions of adverse reactions in the United States, with millions more predicted.

Numerous prominent physicians and scientists have also been warning about the potential catastrophic deaths that will be caused by this experimental COVID-19 mRNA gene modification injection. Dr. Luc Montagnier, a Nobel prize winning virologist, who discovered the HIV AIDS virus, says that this experimental gene therapy injection is the biggest risk of genocide in the history of mankind. Dr. Michael Yeadon, former Vice-President and Chief Scientist for Allergy and Respiratory of Pfizer Pharmaceutical, warned “**[Your government is lying to you in a way that could lead to your death. They are going to kill you using this method. They are going to kill you and your family.](#)**” Others who share Dr. Yeadon’s concerns include [Drs. Sherri Tenpenny](#), [Simone Gold](#), [Geert Vanden Bossche](#), [Doug Corrigan](#), [Judy Mikovits](#), [Lee Merritt](#), [Dolores Cahill](#), and [Peter McCullough](#).

Secondly, does it work? No. The so-called COVID-19 “vaccine” is not a vaccine at all, rather it is an experimental mRNA gene modification procedure, which injects foreign mRNA, made in a pharmaceutical lab, into your body that then enters the cells of your body. **This foreign mRNA, which carries genetic information, hijacks your cells and causes them to produce the dangerous SARS-CoV-2 virus spike proteins.**

It is this spike protein, independent of the COVID-19 (SARS-CoV-2) virus, that has been shown to damage blood vessels, cause blood clots and damage multiple organ systems, including the heart, lungs, liver, brain, bone marrow, ovaries and testicles.

The spike protein causes a hyperreactive immune response and inflammation. When the spike protein binds to ACE2 receptors on the host’s cells, it causes the immune system’s natural killer (NK) cells to destroy those cells.

In 2005 and 2012, experimental vaccines were developed and tested in animal studies against the coronaviruses that caused the Severe Acute Respiratory Syndrome (SARS-CoV-1) and the Middle East Respiratory Syndrome (MERS). A month later, the animals were exposed to the pathogenic coronavirus. **The animals developed a hyperimmune response that led to a cytokine storm in the lungs and other major organs, causing most of the animals to die. The FDA would not allow either of these experimental coronavirus vaccines to undergo human trials because of the adverse events that had occurred in the animal studies.**

<https://crtxnews.com/3-questions-you-need-to-ask-about-the-experimental-covid-injection/>

If you read the Pfizer, Moderna, Johnson & Johnson or AstraZeneca websites regarding their so-called COVID-19 “vaccines,” **you will find that all of them state that their “vaccines” do NOT have FDA approval. They have only been authorized by the FDA under the Emergency Use Authorization (EUA) Act.** Obtaining FDA approval of a medication or a vaccine requires published animal experimental trials, followed by human clinical trials, which are experimental by definition. These may take five to ten years to complete. There have been no published animal studies on any of the experimental COVID-19 gene modification injections. **This type of experimental mRNA gene modification injection has never before been used in humans. This means that those individuals who have taken this experimental COVID-19 mRNA gene modification injection, are one of millions of human guinea pigs.**

By referring to it as a “vaccine,” the pharmaceutical companies acquire liability protection under the 2005 Public Readiness and Emergency Preparedness Act (PREP),

<https://www.phe.gov/Preparedness/legal/prepact/Pages/default.aspx>. **This provides them with protection against lawsuits from people who may have been injured or killed by their experimental gene modification injections.** Claiming that it is nothing more than another flu shot is a lie. In fact, it is an experimental COVID-19 mRNA genetic modification injection that will permanently and irreversibly damage your health and shorten your life span. Already, the AstraZeneca and Johnson & Johnson experimental COVID-19 “vaccines” were suspended due to adverse reactions and deaths.

The experimental COVID-19 mRNA gene modification injection neither provides immunity nor prevents transmission of the virus. Already, scores of people who have received the experimental gene modifying injection have become infected. As I and others had predicted, the experimental Covid injection has led to the development of mutations of the virus, which are called variants. That is why the CDC recommends that individuals who receive it should still wear masks and social distance, both of which are totally ineffective in stopping the spread of viral diseases.

By the way, the material in the experimental injection is produced using the cells of aborted babies.

Both Pfizer and Moderna have lied about the effectiveness of their experimental injections.

[Peter Doshi](#), Associate Editor of the esteemed *British Medical Journal (BMJ)*, reviewed the available data from Pfizer’s human clinical trials and concluded that Pfizer’s claim of a 95% effective rate of the experimental “vaccine,” which is the **Relative Risk Reduction (RRR)**, was false. **In fact the experimental “vaccine” only had a 19% effective rate, or Relative Risk Reduction.** At this low rate, it never would have been approved. However, the **19% RRR** does not give a true picture of the vaccine’s lack of effectiveness.

Epidemiologist Dr. Ronald B. Brown noted in a March 2021 [medical journal article](#) that **pharmaceutical companies focus on the Relative Risk Reduction, but fail to mention**

<https://crtxnews.com/3-questions-you-need-to-ask-about-the-experimental-covid-injection/>

the more realistic and significant Absolute Risk Reduction. In the case of the Pfizer and Moderna experimental gene modification injections, **Dr. Brown reported that the Absolute Risk Reduction in the pre-approval studies for Pfizer’s “vaccine” was only 0.7% and Moderna’s was 1.1%. This proves that these experimental gene modification injections provide essentially no protection against the SARS-CoV-2 coronavirus that causes the COVID-19 infection.**

What we are experiencing is medical tyranny. Fauci, the CDC, the World Health Organization, the government health bureaucrats, corrupt politicians and the bought and paid for media are liars and frauds. They are prostitutes for Big Pharma. Fauci collaborated with the Communist government of China’s Wuhan Lab to develop this bioweapon virus. Tony Fauci, and his benefactor, Bill Gates, government health officials, conventional doctors and tin-pot political dictators around the country, who have perpetrated this medical disaster, will one day be held accountable for their crimes against humanity. They should all be lumped together with the likes of Nazi doctor Josef Mengele, Hitler, Stalin, Mao Tse-Tung and other mass murderers.

Fauci has never practiced medicine. For over 50 years he has worked as a government health bureaucrat for the National Institute of Health (NIH) and the National Institute of Allergy and Infectious Diseases (NIAID). **Fauci and the CDC cannot be trusted. They lie to us on a regular basis** and their propaganda arm, the mainstream media, promotes their lies. Their theory is that if you lie big enough and for long enough, then the people will believe your lies, even in the face of the truth. Once people accept a lie it is difficult for them to admit they were fooled and they tend to hold on to the lie even more tightly.

The new wave of this viral illness began after the rollout of this experimental gene therapy injection, the so-called “vaccine.” Fauci and the CDC are now talking about booster shots against the so-called Delta variant for which there is no test to even prove that a patient has it. When that fails, there will be a Lamda variant, then an Epsilon variant, and on, and on. It is like a dog chasing its tail. **The drug companies will be making a fortune off their booster injections for every new variant and society will become sicker and sicker.**

Finally, is this experimental injection necessary? No. There are safe, proven, inexpensive treatments, such as Hydroxychloroquine and Ivermectin, which, when used early, have reduced hospitalizations by 84%. Budesonide, an inhaled steroid, relieves inflammation in the lungs caused by the hyperinflammatory response of the immune system. Azithromycin is an antibiotic that helps prevent secondary bacterial infections. Oral Cortisol and other steroids also help relieve inflammation in the lungs. High doses of vitamin A, B Complex, C, vitamin D3, zinc, magnesium and probiotics help strengthen the immune system. **I and thousands of my like-minded medical colleagues across the country have successfully used these treatments in millions of patients.**

There is zero justification for using the deadly experimental Covid gene modifying injection. Since this experimental injection doesn’t provide immunity to or prevent transmission of the COVID-

<https://crtxnews.com/3-questions-you-need-to-ask-about-the-experimental-covid-injection/>

19 coronavirus, why then would you expose yourself or your family members to an injection that is likely to cause immediate or long-term, adverse health effects or death?

Ask yourself, “Why has there been censorship of the safe treatments for the Covid-19 infection and censorship of dangerous side effects of the experimental injection?” **True science does not censor different views of an issue, but tyrants do.**

If this experimental gene modifying injection were so beneficial, then why do the pharmaceutical companies, the health bureaucrats, the corrupt politicians and the paid for media have to use psychological coercion and propaganda, as well as mandates, to force people to take the shot?

This violates the 1947 Nuremberg code, which states that no one can be forced to take an experimental medical procedure or therapy without their full informed consent. The Nazi doctors who experimented on the prisoners in the concentration camps were convicted of their crimes against humanity and executed. **I predict that those who are perpetrating this injustice will experience a similar fate.**

This has been a planned epidemic with the intention of creating panic, fear, and hysteria, which has led to a mass psychosis in our society, <https://m.youtube.com/watch?v=09maaUaRT4M&feature=youtu.be>.

Fauci and the CDC lied about the Covid PCR test. They claimed it was the gold standard for determining the presence of the Covid-19 virus. **Dr. Kary Mullis, the inventor of the PCR, for which he won a Nobel prize, stated that the PCR was never meant as a diagnostic test for any disease,** <https://youtu.be/rXm9kAhNj-4>.

In July 2021, the CDC admitted that the PCR test was not a specific test for the Covid-19 and that it would be replaced by another test in December of 2021. This is what I and numerous other physicians and scientists had been saying since April 2020. **This means that the PCR test was completely bogus, and that the statistics about the Covid-19 infection rate were also bogus.** The CDC has also admitted that **the PCR test was positive when you had the flu and other viral illnesses.**

The overall survival rate for those who did develop this viral infection is 99.97%, like the annual flu. The CDC has written that only 6% of reported Covid-19 deaths were caused solely by the Covid-19 virus. The rest of the people who died with the Covid-19 infection had at least 3 pre-existing health problems. **The average age of death was nearly 80 years old and over half the deaths were in individuals who were nursing home patients.** This is what happens every year. Twenty percent of the annual deaths in the United States, approximately 550,000 individuals, are nursing home patients.

This scandemic has been a psychological operation by those who wanted to create fear and panic in society, in order to destroy our liberties, our national independence and force America into a totalitarian government.

Fear drives people to do irrational things. When overwhelmed by fear, people will willingly give up their God-given, unalienable rights and liberties in exchange for an illusion of safety. **They end up with neither.**

As a Christian and as a medical doctor, it is my moral and ethical duty and responsibility, like that of a watchman on a wall, to warn you about the serious dangers associated with the experimental Covid gene modifying injection. By sending you this video, I am discharging my duty. **The responsibility is now yours to pass on this information and to warn your family members, friends, fellow church members and associates.**

Stand firm and just say “No!”

Stay as far away from the experimental COVID-19 gene modification injection as you would a West Texas rattlesnake.

“For God has not given us a spirit of fear, but of power, and of love, and of a sound mind.” (2 Timothy 1:7)

Placing your faith in God and taking charge of your health by strengthening your immune system, conquers fear.
