## Is COVID-19 to Some Degree Caused by Graphene Oxide?

# COVID-19 Is Caused By Graphene Oxide

Today, [La Quinta Columna](#) has made an urgent announcement that they hope will reach as many people as possible, especially those involved in health and legal services, as biostatistician Ricardo Delgado, Dr. José Luis Sevillano and the team of researchers and professors with whom they have been conducting their research have confirmed the presence of graphene oxide nanoparticles in vaccination vials.

In program n°63, [the team showed some photos of the analyses carried out](#), specifically results obtained by optical and transmission electron microscopy observation, reserving the results of other techniques used for future programs. They also announced that the report based on all the techniques performed, which allowed determining the presence of graphene oxide, will be made official by the researchers who performed the analyses very soon.

[Orwell City](#), as always, has translated the message from La Quinta Columna and subtitled the video they shared a few hours ago on their official [Telegram](#) channel.

Hereafter La Quinta Columna shall provide you with information vital to your health, physical integrity and that of your environment.

The masks being used and currently marketed contain graphene oxide. Not only the ones that were withdrawn at the time, as indicated by the media, the swabs used in both PCR and antigen tests also contain graphene oxide nanoparticles.

**The COVID vaccines in all their variants, AstraZeca, Pfizer, Moderna, Sinovac, Janssen, Johnson & Johnson, etc., also contain a considerable dose of graphene oxide nanoparticles.** This has been the result of their analysis by electron microscopy and spectroscopy,

among other techniques used by various public universities in our country.

**The anti-flu vaccine contained nanoparticles of graphene oxide and the new anti-flu vaccines and the new and supposedly intranasal anti-COVID vaccines they are preparing also contain enormous doses of graphene oxide nanoparticles.** Graphene oxide is a toxic that generates thrombi in the organism, graphene oxide is a toxic that generates blood coagulation. Graphene oxide causes alteration of the immune system. By decompensating the oxidative balance in relation to the glutathione reserves. If the dose of graphene oxide is increased by any route of administration, it causes the collapse of the immune system and subsequent cytokine storm.

Graphene oxide accumulated in the lungs generates bilateral pneumonias by uniform dissemination in the pulmonary alveolar tract. Graphene oxide causes a metallic taste. Perhaps this is starting to make sense to you now. Inhaled graphene oxide causes inflammation of the mucous membranes and thus loss of taste and partial or total loss of smell.

**Graphene oxide acquires powerful magnetic properties inside the organism.** This is the explanation for the magnetic phenomenon that billions of people around the world have already experienced after various routes of administration of graphene oxide. Among them the vaccine.

**In short, graphene oxide is the supposed SARS-CoV-2, the supposed new coronavirus provoked before the disease called COVID-19. Therefore, we never had real isolation and purification of a new coronavirus, as recognized by most health institutions at the highest level and in different countries when they were questioned about it. COVID-19 disease is the result of introducing graphene oxide by various routes of administration.**

Graphene oxide is extremely potent and strong in aerosols, as is the alleged SARS-CoV-2. Like any material, graphene oxide has what we call an '[electronic absorption band](#)'. This means a certain frequency above which the material is excited and oxidizes very rapidly, thus breaking the equilibrium with the proliferation in the organism of the toxicant against our natural antioxidant glutathione reserves. Precisely this frequency band is emitted in the new emission bandwidths of the new 5G wireless technology. That is why the deployment of these antennas never stopped during the pandemic.

In fact, they were among the few services that were maintained, apart from a special surveillance by the State Security Forces and Corps to these antennas. We suspect in that the 2019 anti-flu campaign graphene oxide was introduced in these vials, since it was already used as an adjuvant.

With subsequent 5G technology trials in different parts of the world, COVID-19 disease developed in interaction of external electromagnetic fields and graphene oxide now in their bodies. Remember that it all started in Wuhan, and this was the first pilot sample city in the world to do the 5G technology trial in late November 2019. It's a coincidence in space and time.

Both the pangolin and bat soup versions were simply distracting elements. [The purpose of the](#)

**[introduction of graphene oxide is even more obscure than you might imagine.](#)**

Therefore, it is more than enough for you to assimilate this information and 'reset' the knowledge you had of the disease up to now from the highest governmental institutions telling the population to protect themselves and even forcing them with that which will potentially make them sick with the disease itself. Logically, now that we know that the cause or etiological agent of the disease is precisely a chemical toxicant and not a biological agent, we know how to attenuate it: **by increasing glutathione levels**. Glutathione is a natural antioxidant that we present in reserves in the organism.

A few details will help you to understand perfectly everything that has been reported in the media. Glutathione is extremely high in children. Therefore, the disease has hardly any impact on the child population. Glutathione drops very considerably after 65 years of age. Therefore, COVID-19 is especially prevalent in the senile population. Glutathione is at very high levels in the intensive sports population. This is why only 0.22% of athletes had the disease.

You will now understand why countless studies in practice have shown that treatment with N-acetylcysteine (which is a precursor of glutathione in the body), or glutathione administered directly, cured COVID-19 disease very quickly in patients. Plain and simple because the glutathione levels were raised to cope with the administered toxicant called graphene oxide.

The discovery made here by La Quinta Columna is **[a full-fledged attack of State bioterrorism](#)**, or at least with the complicity of governments to the entire world population, now constituting crimes against humanity.

It is therefore absolutely essential and vital that you make this information available to your medical community. General practitioners, nursing and health services in general, but also local and regional media and press, as well as all your environment. **La Quinta Columna estimates that tens of thousands of people will die every day**. In our country alone when they make the new and upcoming 5G technological switch-on.

Bearing in mind that now it is not only the elderly in nursing homes who are vaccinated in that flu vaccine with graphene oxide, but, as you know, a large part of the population has been vaccinated, or graphenated, with gradual doses of graphene oxide.

The body has a natural capacity to eliminate this toxicant, which is why we propose you up to a third dose per year for all the years to keep the graphene in your bodies.

**We have each and every one of the proofs of what has been manifested here.** Meanwhile justice is trying to act, people will continue to be pushed off a bottomless cliff. If you are watching this audiovisual material, you will understand that for more than a year you have been totally and naively deceived from the highest institutions. Only now will you understand all the incongruities that you observed on your television news.

To complement this valuable information you can access **<https://www.laquintacolumna.net>** or

our Telegram channel: [La Quinta Columna TV](#), where more than 100,000 people are already aware of the truth and are not part of the massive deception to which they were subjected. Please make this video viral all around you and let's stop among all of us. The destiny that is in store for us, [fruit of the Agenda 20/30 roadmap](#), depends only on us.

Thank you for your attention.
