

Are We Living in a Dystopian Reality?

Analysis by [Tessa Lena](#)

STORY AT-A-GLANCE

- › What will our life today sound like to the future generations? Will they be able to understand how we agreed to this?
- › In order to create massive confusion, those in power have constructed a massive tower of lies
- › Yes, Fauci did compare COVID to influenza in a paper published in February 2020
- › BlackRock, Vanguard, and State Street own majority stakes in every big company in every major industry, including in the media
- › The entire official COVID narrative of the past two years rests on a number of bold lies, and people are being medically murdered to justify corporate profits and a transition to the Great Reset

A Letter to Our Descendants, From 2022

Hello, descendants. I am writing this from year 2022. I am in America. Things are weird. Our governments have betrayed us, our science has been kidnapped and put on a ventilator, and our official media is already dead.

As we are approaching two years of this insanity, I want you to hear the story of how this tower of lies was built. This story is just the tip of the iceberg but it's important to name the recent lies — and there have been so many of them!

In March 2020, the world went mad, and basic things like hugging a friend or going to visit your parents were declared extreme. Borders were closed. Children were kept away from school. Privacy was made a crime. Elder abuse was glorified. Going to a grocery store or just for a walk outside suddenly required donning a ritual mask.

It was as if the wheel was hijacked by cruel lunatics, and they just started barking orders at everyone that made no sense and caused tremendous pain – but the citizens were too shocked, and they obeyed.

Overtime, for more shock and awe, more madness was introduced. Ritual masks became a permanent fixture, and some of the citizens lost their minds and started feeling endangered if they didn't see masks on everyone's faces, including the toddlers'.

Then, under a military program, the authorities came up with a medical product that was developed so quickly (at a "warp speed," they said) that they could not have possibly tested it properly for safety – and yet, the product was declared holier than even the ritual masks, and the citizens were mandated to inject the mystery potion into their bodies if they wanted to go to work, eat at a restaurant, and in some cases, visit the family.

When the government first introduced it, they said that the mystery potion was so potent that it would stop the disease – and the madness would stop, and the normal life would resume at long last.

Soon though, it turned out the potion didn't work very well and lost power quickly – not to mention strange side effects – so there was no return to old normal at all: only barking, and more fear, more injections and ritual masks, forever and ever.

And so here we are. It's 2022, our government has betrayed us, our science is on a vent, and our media is dead. Weird, huh? If this sounds to you like a bad dream (hope it does) – yes, it does sound absurd, and alas, this is our life. So, dear descendants, let us talk about the tower of lies that they built.

Tony Fauci in Early 2020

In February 2020, NIAID Director Tony Fauci published a [paper](#) in New England Journal of Medicine, in which he said the following: "The overall clinical consequences of Covid-19 may ultimately be more akin to those of a severe seasonal influenza (which has a case fatality rate of approximately 0.1%) or a pandemic influenza (similar to those in 1957 and 1968) rather than a disease similar to SARS or MERS, which have had case fatality rates of 9 to 10% and 36%, respectively."

The month he published that paper was the very last month of old normal. After that, no one was allowed to compare COVID to the flu without a punishment.

Lies, Lies, Lies

First, they changed definitions, some in the years preceding COVID, and some in the past two years. They updated the meanings of basic words like "[pandemic](#)," "[herd immunity](#)," "[vaccine](#)," "vaccinated," "[unvaccinated](#)," "[available ICU beds](#)," "[breakthrough infections](#)" (formerly known as "[vaccine failure](#)"), and many others.

Then, they told blatant lies. Below is an incomplete list of lies that has allowed them to maintain the madhouse we are in.

COVID is untreatable – Many doctors disagree but those of them who have treated thousands of patients successfully, such as [Dr. Zelenko](#), [Dr. McCullough](#), [Dr. Kory](#), [Dr. Bowden](#), and many others, are severely harassed, while the medical protocols they have developed are blocked to the extent of hospitalized patients being forced to hire lawyers to be allowed to take doctor-prescribed "dissident" medications for COVID, and the FDA instructing the post office to block foreign packages containing ivermectin.

(Remember that February 2020 [article](#) by Fauci? He mentioned chloroquine there as a protentional COVID treatment. That clearly didn't last.)

Also tragically, Dr. Giuseppe De Donno in Italy was found dead ("suicide") after having saved many lives early in the pandemic. People loved him but he was harassed by

Big Pharma despite (or because) saving lives.

PCR tests are a "gold standard" of COVID diagnostics – The inventor of PCR, Kary Mullis, explicitly [said](#) that the technology is not suitable for medical diagnostics. The test does not distinguish between a live pathogen (however it was or was not isolated) and debris.

With cycle thresholds as high as 35 or 45, the test can find anything in anything. Even Fauci [said](#) that with a cycle threshold above 35, tests were not too reliable. But here is a 40-cycle test developed by the [MIT](#). And here is a 45-cycle [test](#) used in South Australia.

The false positive rate is very [high](#), estimated by some at 90% or even higher. Different cycle thresholds are used for the [vaccinated](#) and the unvaccinated. Lab contamination is a [thing](#).

As I said in my [article about this](#), "We simply don't have good science on COVID. A reliable method of diagnostics is necessary to call anything a pandemic, or, uhm, diagnose a disease. Yet the show is going on."

It's a pandemic of the unvaccinated – Many doctors, scientist, and observant individuals disagree. Here's what [Steve Kirsch](#) has to say about the pandemic of the unvaccinated. And here is Dr. Bowden:

Let us also keep in mind that during the first two weeks post-vax, which is a negative efficiency window where a lot of people get "COVID-like symptoms," the vaccinated people are recorded as "unvaccinated." And people are only considered fully vaccinated 14 days after the second or only dose. Or maybe the booster.

Children are dying from COVID – This is a complete fabrication. Children don't seem to be impacted by COVID in any serious way, and while a few children with underlying health issues have sadly passed away with or from COVID, and every death is of course a tragic loss for the family, those cases are [extremely rare](#).

The injections aren't causing massive heart problems in teen boys and young adults – Not true. According to [Steve Kirsch](#), "Anecdotal data from a pediatric cardiologist shows an estimated 100X increase in myocarditis rates. Cardiologists can't speak out without risking retribution." Please also see this fantastic analysis by [James Lyons-Weiler](#).

Athletes are not collapsing... nothing to see! – One of the best reports on this was made by [Steve Kirsch](#). See for yourself.

VAERS Is Junk Data

A pre-COVID Harvard-associated [study](#) concluded that less than 1% of all vaccine injuries get recorded:

"Adverse events from drugs and vaccines are common, but underreported. Although 25% of ambulatory patients experience an adverse drug event, less than 0.3% of all adverse drug events and 1-13% of serious events are reported to the Food and Drug Administration (FDA). Likewise, fewer than 1% of vaccine adverse events are reported.

Low reporting rates preclude or slow the identification of "problem" drugs and vaccines that endanger public health. New surveillance methods for drug and vaccine adverse effects are needed. Barriers to reporting include a lack of clinician awareness, uncertainty about when and what to report, as well as the burdens of reporting: reporting is not part of clinicians' usual workflow, takes time, and is duplicative."

VAERS is cumbersome. It takes no less than 30 minutes to file a report, and doctors don't get paid for that. There is intimidating legal language of every page, and doctors are often discouraged from filing reports by their hospital systems. The number of adverse events reported to VAERS for COVID injections dwarves all adverse events from all vaccines for the entire time the system has existed.

Medicare data **shows** 48,465 deaths related to shots and support the notion that VAERS data needs to be taken most seriously.

- **We should trust Big Pharma** – Sure, why not. Except vaccine manufacturers can't be sued if this product causes injury; **Pfizer** has paid billions in settlements and tried to **bribe its way** out of criminal charges in Nigeria; Pfizer also asked the FDA to be allowed to not disclose their safety and other data **for 75 years**; They also **bullied** various governments to ensure total legal immunity.

And a FOIA-obtained "**post-marketing**" data (a part of the data that they wanted to hide from the public for 75 years) showed recorded adverse events and fatalities at a heartbreaking rate (1223 deaths in three months *in their own data*).

Table 1. General Overview: Selected Characteristics of All Cases Received During the Reporting Interval

	Characteristics	Relevant cases (N=42086)
Gender:	Female	29914
	Male	9182
	No Data	2990
Age range (years): 0.01 -107 years Mean = 50.9 years n = 34952	≤ 17	175 ^a
	18-30	4953
	31-50	13886
	51-64	7884
	65-74	3098
	≥ 75	5214
	Unknown	6876
Case outcome:	Recovered/Recovering	19582
	Recovered with sequelae	520
	Not recovered at the time of report	11361
	Fatal	1223
	Unknown	9400

a. in 46 cases reported age was <16-year-old and in 34 cases <12-year-old.

And here is one of my favorites when it comes to trust. Jim (or James) Smith, **Chairman of the Thomson Reuters Foundation**, is a **Director at Pfizer**. He also serves who on the World Economic Forum's ... Partnering Against Corruption Initiative. Perfect. Speaking of media ...

Who Owns the Media (and Everything Else)?

Here is an excerpt from the article called, "[How a Company Called BlackRock Shapes Your News, Your Life, Our Future](#)":

Who controls the corporations who control our news? A helpful index was just compiled – not by mainstream media, but by Harvard researchers [exploring](#) media's future. Skimming the list, I see two names again and again: BlackRock Fund Advisors and Vanguard Group.

BlackRock and Vanguard are two of the Big Three (every industry is clumping) passive fund asset management firms. The third, State Street, is owned by BlackRock. Whose largest shareholder is Vanguard. Together, BlackRock and Vanguard own:

- *Eighteen percent of Fox.*
- *Sixteen percent of CBS, and therefore also of Sixty Minutes.*
- *Thirteen percent of Comcast, which owns NBC, MSNBC, CNBC, and the Sky media group.*
- *Twelve percent of CNN.*
- *Twelve percent of Disney, which owns ABC and FiveThirtyEight.*
- *Between ten and fourteen percent of Gannett, which owns more than 250 Gannett daily newspapers plus USA Today.*
- *Ten percent of the Sinclair local television news, which controls seventy-two percent of U.S. households' local TV.*
- *A large unspecified chunk of Graham Media Group, which owns Slate and Foreign Policy.*

By the way, to see that the same trio also owns major stakes in every big company in every major industry, just go to Yahoo!Finance and see for yourself. Here is just one example: [Pfizer](#).

The screenshot shows the Yahoo! Finance website interface. At the top, there is a search bar with the text "Search for news, symbols or companies" and a magnifying glass icon. Below the search bar is a navigation menu with links for "Finance Home", "Watchlists", "My Portfolio", "Screeners", "Yahoo Finance Plus", "Markets", "News", and "Personal Finance".

The main content area is titled "Top Institutional Holders" and contains a table with the following data:

Holder	Shares	Date Reported	% Out	Value
Vanguard Group, Inc. (The)	459,942,303	Sep 29, 2021	8.19%	19,782,118,452
Blackrock Inc.	410,828,305	Sep 29, 2021	7.32%	17,669,725,398
State Street Corporation	279,803,181	Sep 29, 2021	4.99%	12,034,334,814
Capital World Investors	241,360,858	Sep 29, 2021	4.30%	10,380,930,502
Wellington Management Group, LLP	220,948,772	Sep 29, 2021	3.94%	9,503,006,683
Geode Capital Management, LLC	99,593,093	Sep 29, 2021	1.77%	4,283,498,929
Northern Trust Corporation	67,839,011	Sep 29, 2021	1.21%	2,917,755,863
Norges Bank Investment Management	60,296,992	Dec 30, 2020	1.07%	2,219,532,275
Bank Of New York Mellon Corporation	58,869,431	Sep 29, 2021	1.05%	2,531,974,227
Bank of America Corporation	57,431,475	Sep 29, 2021	1.02%	2,470,127,739

Below the institutional holders table is a section titled "Top Mutual Fund Holders" with the following data:

Holder	Shares	Date Reported	% Out	Value
Vanguard Total Stock Market Index Fund	158,437,624	Sep 29, 2021	2.82%	6,814,402,208
Vanguard 500 Index Fund	117,741,185	Sep 29, 2021	2.10%	5,064,048,366

And here's a quote from a Columbia Journalism Review article called, "[Journalism's Gates Keepers](#)" about Bill Gates and his Foundation's grants to the media:

"I recently examined nearly twenty thousand charitable grants the Gates Foundation had made through the end of June and found more than \$250 million going toward journalism.

Recipients included news operations like the BBC, NBC, Al Jazeera, ProPublica, National Journal, The Guardian, Univision, Medium, the Financial Times, The Atlantic, the Texas Tribune, Gannett, Washington Monthly, Le Monde, and the Center for Investigative Reporting; charitable organizations affiliated with news

outlets, like BBC Media Action and the New York Times' Neediest Cases Fund; media companies such as Participant, whose documentary *Waiting for "Superman"* supports Gates's agenda on charter schools; journalistic organizations such as the Pulitzer Center on Crisis Reporting, the National Press Foundation, and the International Center for Journalists; and a variety of other groups creating news content or working on journalism, such as the Leo Burnett Company, an ad agency that Gates commissioned to create a "news site" to promote the success of aid groups.

In some cases, recipients say they distributed part of the funding as subgrants to other journalistic organizations – which makes it difficult to see the full picture of Gates's funding into the fourth estate."

And here is an excerpt from a Mint Press News / Grayzone article called, "[Documents show Bill Gates has given \\$319 million to media outlets to promote his global agenda](#)," according to which, the Foundation has given 319+ million dollars to media outlets. And while I disagree with the author on his dismissal of "conspiracy theories," his analysis of Gates' corruption is quite excellent. Below is just the award directly to media outlets:

NPR – \$24,663,066	The Guardian (including TheGuardian.org) – \$12,951,391
Cascade Public Media – \$10,895,016	Public Radio International (PRI.org/TheWorld.org) – \$7,719,113
The Conversation – \$6,664,271	Univision – \$5,924,043
Der Spiegel (Germany) – \$5,437,294	Project Syndicate – \$5,280,186
Education Week – \$4,898,240	WETA – \$4,529,400
NBCUniversal Media – \$4,373,500	Nation Media Group (Kenya) – \$4,073,194

Le Monde (France) – \$4,014,512	Bhekisisa (South Africa) – \$3,990,182
El País – \$3,968,184	BBC – \$3,668,657
CNN – \$3,600,000	KCET – \$3,520,703
Population Communications International (population.org) – \$3,500,000	The Daily Telegraph – \$3,446,801
Chalkbeat – \$2,672,491	The Education Post – \$2,639,193
Rockhopper Productions (U.K.) – \$2,480,392	Corporation for Public Broadcasting – \$2,430,949
UpWorthy – \$2,339,023	Financial Times – \$2,309,845
The 74 Media – \$2,275,344	Texas Tribune – \$2,317,163
Punch (Nigeria) – \$2,175,675	News Deeply – \$1,612,122
The Atlantic – \$1,403,453	Minnesota Public Radio – \$1,290,898
YR Media – \$1,125,000	The New Humanitarian – \$1,046,457
Sheger FM (Ethiopia) – \$1,004,600	Al-Jazeera – \$1,000,000
ProPublica – \$1,000,000	Crosscut Public Media – \$810,000
Grist Magazine – \$750,000	Kurzgesagt – \$570,000
Educational Broadcasting Corp – \$506,504	Classical 98.1 – \$500,000
PBS – \$499,997	Gannett – \$499,651

Mail and Guardian (South Africa) — \$492,974	Inside Higher Ed. — \$439,910
BusinessDay (Nigeria) — \$416,900	Medium.com — \$412,000
Nutopia — \$350,000	Independent Television Broadcasting Inc. — \$300,000
Independent Television Service, Inc. — \$300,000	Caixin Media (China) — \$250,000
Pacific News Service — \$225,000	National Journal — \$220,638
Chronicle of Higher Education — \$149,994	Belle and Wissell, Co. — \$100,000
Media Trust — \$100,000	New York Public Radio — \$77,290
KUOW — Puget Sound Public Radio — \$5,310	

With all this corruption, is it really that shocking that our mainstream science is dying and our mainstream media already dead and replaced by some kind of an infomercial zombie? Not that shocking, I think. And we have not even dug in the [Great Reset](#) and 4IR! I would like to end this story with an anecdote about my cab ride with the radio on.

Whatever the show was about, it was really about COVID "vaccines." "Vaccines! Vaccines! Vaccines-vaccines-vaccines! Vaccines!!!" chirped the radio. They delivered their horrible lies in an ordinary, confident tone. They mocked the caricature "antivaxxers" and made science-conscious people sound like slime.

The toxicity of the programming was through the roof — and yet to the driver, it seemingly felt normal, to my great surprise. There was not one factual truth in their

entire reporting – and I wanted to scream – and yet the driver was not bothered at all.

So I guess, propaganda does work very well, and we have slid into a dystopian world. Which, as far as I am concerned, only means one practical thing: Not acceptable, and game on.

About the Author

To find more of Tessa Lena's work, be sure to check out her bio, [Tessa Fights Robots](#).
