SITUATION UPDATE DEC 22ND, 2021 (PART 1)

HARVARD SCIENTIST CHARLES LIEBER, NANOWIRES, DOD, CCP, WUHAN, COVID AND VACCINE BIOWEAPONS

Brighteon.com

(Natural News) File all this under “true conspiracies.” See the two podcasts below for even more details on this breaking story. I went on the Alex Jones Show today for 5 segments to discuss this in more detail. Those segments will be posted below as they are available via Brighteon.

You need to listen to at least the Part 1 Situation Update podcast below to get up to speed (about 45 min) in order to get the full background on this story.

The quick summary summary of the story is that Harvard scientist Dr. Charles Lieber was convicted yesterday on all six counts after lying to authorities about receiving millions of dollars from communist China as he shared his groundbreaking technology with a Wuhan technology institute. (See RT.com) Also arrested were two Chinese nationals, one was a female “academic” who was also a lieutenant in the People’s Liberation Army, and another person caught trying to

smuggle biological weapons out of Boston's Logan airport (MERS and SARS strains).

Dr. Lieber is a genius-level scientist who specializes in exotic nanowire technology and how it interfaces with human neurology and biology. Some of his actual patent titles and numbers:

9,029,836 Controlled synthesis of monolithically-integrated graphene structure

10,369,255 Scaffolds comprising nanoelectronic components for cells, tissues, and other applications

9,595,685 Nanoscale wires, nanoscale wire FET devices, and nanotube-electronic hybrid devices for sensing and other applications

9,457,128 Scaffolds comprising nanoelectronic components for cells, tissues, and other applications

9,252,214 Apparatus, method and computer program product providing radial addressing of nanowires

From Townhall.com citing the US DOJ:

Dr. Charles Lieber, 60, Chair of the Department of Chemistry and Chemical Biology at Harvard University, was arrested this morning and charged by criminal complaint with one count of making a materially false, fictitious and fraudulent statement.

Yanqing Ye, 29, a Chinese national, was charged in an indictment today with one count each of visa fraud, making false statements, acting as an agent of a foreign government and conspiracy. Ye is currently in China.

*Zaosong Zheng, 30, a Chinese national, was arrested on Dec. 10, 2019, at Boston's Logan International Airport and charged by criminal complaint with **attempting to smuggle 21 vials of biological research to China**. On Jan. 21, 2020, Zheng was indicted on one count of smuggling goods from the United States and one count of making false, fictitious or fraudulent statements. He has been detained since Dec. 30, 2019.*

*"According to court documents, since 2008, Dr. Lieber who has served as the Principal Investigator of the Lieber Research Group at Harvard University, which specialized in the area of nanoscience, **has received more than \$15,000,000 in grant funding from the National Institutes of Health (NIH) and Department of Defense (DOD)**. These grants require the*

disclosure of significant foreign financial conflicts of interest, including financial support from foreign governments or foreign entities,” DOJ reveals.

“Unbeknownst to Harvard University beginning in 2011, Lieber became a “Strategic Scientist” at Wuhan University of Technology (WUT) in China and was a contractual participant in China’s Thousand Talents Plan from in or about 2012 to 2017. China’s Thousand Talents Plan is one of the most prominent Chinese Talent recruit plans that are designed to attract, recruit, and cultivate high-level scientific talent in furtherance of China’s scientific development, economic prosperity and national security.”

Nanomesh, neurology interface control systems, “radial addressing” of nanowires

Another patent from Dr. Lieber:

9,252,214 Apparatus, method and computer program product providing radial addressing of nanowires

This allows for embedded AI systems to control nano-mesh lattices that interface with human neurology to both monitor and control human beings. This technology was being transferred to China.

Speculation is that **nano-mesh lattices could be inserted into vaccines** and once injected, they would self-assemble into neuralink-like computational interface systems that read and control human neurology.

This technology would essentially allow Mark Zuckerberg to project his “Meta” universe into your brain *without using goggles*. It’s a full-matrix scenario, where these nanowire / embedded computational systems could eventually **read your own private thoughts** (inner dialog) and surveil the most private thing you have — your mind.

This tech represents *transhumanism* and the “borgification” of humanity. It is the end game of total enslavement and mind control at the neurological level. It can be inserted into your body using hypodermic needles that are falsely labeled “vaccines.” (This does not mean that all vaccine injections are nanowire payloads, just that nanowire payloads can be inserted into such needles due to their nano-scale size.)

Carbon nanotube “payload” release systems activated by

5G

Read up on carbon nanotubes (CNTs) and how they can be used to deliver “payloads” to the cells. These CNTs can be activated by external signals including 5G broadcasts that target specific individuals.

From FBcoverup.com and mirrored on NN servers:

Study title: **Molecular origin of drug release by water boiling inside carbon nanotubes from reactive molecular dynamics simulation and DFT perspectives**

From the study:

*Since the discovery of carbon nanotubes (CNTs) in 1991 and earlier in 1952, CNTs have come to the focus of attention, and their benefits can be currently found. The idea of using a hollow cylindrical structure as a transporter or container has been proposed for many years. Most recently, special properties of these novel materials were found in the medical communities with the hope to develop **a new drug delivery system for small treatment agents such as proteins, nucleic acids, and other biologically active molecules**. CNTs are used due to their unique properties in drug delivery, sensors as drug delivery agents, **destruction of tumors with increasing temperature**, cholesterol and blood sugar measurements, **identification of antigens and DNA bonding** with no toxic effects. Given the potential abilities of CNTs inside the cells, the potential application of CNTs is used for transport and delivery of drugs and antibodies without toxic effects.*

*As previously mentioned, it was proposed that **thermal energy delivered to the CNT by a laser light can be used to accelerate the motion of the molecule inside the tube and hence its release from the nanotubes**. It can also be used to weaken and disrupt the CNT-molecule interaction. The local temperature around the nanotubes is controlled by **adjusting the laser radiation intensity** that results in preventing the death of target biological cell.*

This technology, combined with Dr. Lieber’s nanowire “mesh” systems, once advanced to a sufficient level of complexity, would allow **external electromagnetic control of “payload” release** into human cells, effectively creating a binary weapon system.

Vaccine needles can carry the CNTs. 5G towers can activate them. The only question is: What is the payload?

US military rolls out Spike Ferritin Nanoparticle “universal”

vaccines – the final kill switch?

Now, using what we believe to be Dr. Lieber's technology developed over the last two decades **using DoD money and NIH grant money** totaling millions of dollars, the United States military — which is already trying to mass murder active duty soldiers with covid vaccines — has unveiled a nanotech “universal vaccine” that we believe to be based on Dr. Charles Lieber's research.

From Army.mil, Dec. 16th, 2021:

*A series of recently published preclinical study results show that the **Spike Ferritin Nanoparticle (SpFN) COVID-19 vaccine** developed by researchers at the Walter Reed Army Institute of Research (WRAIR) not only elicits a potent immune response but may also provide broad protection against SARS-CoV-2 variants of concern as well as other coronaviruses.*

*Scientists in **WRAIR's Emerging Infectious Diseases Branch (EIDB)** developed the **SpFN nanoparticle vaccine**, based on a ferritin platform, as part of a forward-thinking “pan-SARS” strategy that aims to address the current pandemic and acts as a first line of defense against variants of concern and similar viruses that could emerge in the future.*

Thus, the military is using synthetic nanoparticles — Spike Ferritin Nanoparticles — to invade the body's cells and deliver a payload. This is of course described as lifesaving technology, but the military has been carrying out mass murder of soldiers for over a century. Just examine the history of medical experimentation on Black soldiers to see the shocking truth.

Don't forget that Trump launched *Operation Warp Speed* and bragged about using the US military to distribute and deploy covid vaccines at record speed. Trump even recently bragged about reducing the usual “5 to 12 years” of vaccine research time down to just “9 months,” which he thinks is an amazing thing. To achieve this, he simply ordered drug companies and the FDA to **skip all the safety studies** and produce a true medical experiment that would be mass injected into billions of people.

See full coverage of Trump tripling down on the vaccines here.

The US military ran a “plandemic” in 1918 and labeled it “Spanish Flu” but it was actually caused by vaccines

The 1918 so-called “Spanish Flu” had nothing to do with Spain. It was actually a covid-like

“plandemic” that was caused by the vaccines given to US military soldiers at Fort Riley, Kansas. The people who died from the “virus” were actually those who were vaccinated, and just like today, soldiers started dropping dead within minutes after being jabbed. This was all run under the blanket pharma domination of the Rockefeller Institute for Medical Research.

From the book, “Swine Flu Expose” by Eleanora I. McBean, PhD, N.D.:

The first World War was of a short duration, so the vaccine makers were unable to use up all their vaccines. As they were (and still are) in business for profit, they decided to sell it to the rest of the population. So they drummed up the largest vaccination campaign in U.S. history. There were no epidemics to justify it so they used other tricks. Their propaganda claimed the soldiers were coming home from foreign countries with all kinds of diseases and that everyone must have all the shots on the market.

The people believed them because, first of all, they wanted to believe their doctors, and second, the returning soldiers certainly had been sick. They didn't know it was from doctor-made vaccine diseases, as the army doctors don't tell them things like that. Many of the returned soldiers were disabled for life by these drug-induced diseases. Many were insane from postvaccinal encephalitis, but the doctors called it shell shock, even though many had never left American soil.

The conglomerate disease brought on by the many poison vaccines baffled the doctors, as they never had a vaccination spree before which used so many different vaccines. The new disease they had created had symptoms of all the diseases they had injected into the man. There was the high fever, extreme weakness, abdominal rash and intestinal disturbance characteristic of typhoid. The diphtheria vaccine caused lung congestion, chills and fever, swollen, sore throat clogged with the false membrane, and the choking suffocation because of difficulty in breathing followed by gasping and death, after which the body turned black from stagnant blood that had been deprived of oxygen in the suffocation stages. In early days they called it Black Death. The other vaccines cause their own reactions — paralysis, brain damage, lockjaw, etc.

When doctors had tried to suppress the symptoms of the typhoid with a stronger vaccine, it caused a worse form of typhoid which they named paratyphoid. But when they concocted a stronger and more dangerous vaccine to suppress that one, they created an even worse disease which they didn't have a name for. What should they call it? They didn't want to tell the people what it really was — their own Frankenstein monster which they had created with their vaccines and suppressive medicines. They wanted to direct the blame away from themselves, so they

called it Spanish Influenza. It was certainly not of Spanish origin, and the Spanish people resented the implication that the world-wide scourge of that day should be blamed on them. But the name stuck and American medical doctors and vaccine makers were not suspected of the crime of this widespread devastation — the 1918 Flu Epidemic. It is only in recent years that researchers have been digging up the facts and laying the blame where it belongs.

Also worth reading: This blog entry by Dr. Sal Martingano, FICPA

In the book, [Vaccination Condemned](#), by Eleanor McBean, PhD, N.D., the author describes, in detail, personal and family experiences during the 1918 “Spanish Flu” pandemic.

McBean’s coverage of the 1918 “Spanish Flu”, as a reporter and an unvaccinated survivor, requires that the historical basis of the event needs to be revisited, not as a “conspiracy theory” but with evidence that will “set your hair on fire”.

A few years ago, I came across another book by Eleanor McBean: “[Vaccination...The Silent Killer](#)”. McBean provides evidence that not only were the historical events of the 1918 “Spanish Flu” compromised, but also those of the Polio and Swine Flu epidemics.

See the full blog entry [here](#).

This chart shows deaths from all vaccines tracked by VAERS in the USA. Notice that covid vaccines now compromise more than half of all deaths from all vaccines combined:
