

# By de-cloaking, the demons running the global depopulation campaign just telegraphed their exact plans for 2022 – 2024

Thursday, January 27, 2022 by: Mike Adams

Tags: chaos, Collapse, conspiracy, deep state, depopulation, extermination, false-flag, Globalism, government, pandemic, survival, terrorism, vaccines

(Natural News) As the truth about the anti-human demonic entities running our world today is revealed *in the present*, it provides us the opportunity to reevaluate *the past* and gain new understanding from our own first person witnessing of history as it unfolded.

For example, we now know that the globalists are, factually speaking, child-trafficking pedophiles. We know they run a global organ harvesting and transplant black market operation. We know they routinely plot to maximize corporate profits by killing any number of human beings in the process (covid vaccines, pharmaceuticals, etc.), and we know they plot false flag operations in order to run psychological terrorism campaigns against the people of the world.

With that realization, looking back at events like 9/11, the Oklahoma City bombing and even World War II suddenly brings new clarity: We realize **the history of the world is actually a history of globalist terrorism against the people of the world**. Nearly every crisis we've all lived through was engineered on purpose and unleashed to achieve a globalist goal of profit,

power or depopulation.

There are almost no acts of actual terrorism committed by individuals or groups that weren't directly run by governments or funded by globalist operators.

Once we fully understand the past and the present, we can then see the future with much greater clarity. We know, for example, that:

1. Any time humans are on the verge of a mass awakening or “freedom” wave, globalists unleash another horrific terrorism campaign to keep people enslaved in fear.
2. A key weapon of the globalists is to force the people into isolation so they cannot talk to each other. Covid lockdowns were part of this, but the far more effective strategy is to **shut down the power grid** so that people can't even communicate electronically.
3. Globalists **telegraph** their moves ahead of time because they need to set up the appropriate narratives in advance of their next wave of attacks. For example, while they plan to take down the power grid themselves, they are putting out warnings that claim “extremist” groups want to target the power grid. The real “extremist” group in the USA is the FBI, of course, and there's nothing more extreme than a fraudulent regime that stole power by rigging elections and staging a hoax “insurrection” to demonize their political opponents.

Knowing this with absolute certainty — and having a firsthand experience now of how globalist governments are actively targeting humanity for total extermination — we can accurately anticipate their next escalation attack.

## **The next play will be the FINAL play against humanity... there won't even be any attempt to hide their real motivations**

It now appears they are ready to play the “end game” card against humanity and go for a total civilization takedown. This means disrupting or destroying the food supply chain, the power grid, telecommunications, monetary systems and the rule of law. The goal is absolute chaos resulting in mass death on a global scale, and the more chaos they can unleash in this manner, the more easily they cover up the truth about vaccine deaths.

All this confirms what we've suspected for quite some time now. The next attack vector will be one or more of the following:

- A staged cyber attack on the financial infrastructure to take down the transactional infrastructure and plunge cities into chaos. This will be the opening round of the "great reset" script.
- A deliberate takedown of the power grid to achieve a similar outcome.
- A subsequent telecom "kill switch," if needed, to ensure the complete collapse of internet functionality so that people can no longer connect online.
- A deliberate release of a highly aggressive pathogen with a very high kill rate (Marburg / Ebola, etc.) or a toxic nanoparticle that simulates a pathogen. The panic from this will be used to drive additional "vaccine" campaigns which are of course simply death shot injections.
- Domestic terrorism false flag operations that involve nuclear or radiological terrorism. (Could also be the mass aerosolized spraying of populations using drones or chemtrail sprayers.)
- Provoking war with Russia or China and destroying the remaining US military in the process, making America deliberately vulnerable to foreign invasion.
- The suspension of fair and free elections, the invocation of medical martial law, mass gun confiscation, domestic checkpoints, covid death camps and similar operations.

The timeline for this is obviously approaching very quickly because globalists are being forced to act. Here's why:

- The awakening is accelerating. The covid narratives are collapsing. Humanity is beginning to rise up against tyranny, and the censorship efforts have failed to stop it.
- The 2022 mid-term elections are coming and cannot be allowed to take place, or Democrats will be thrown out of power.
- Vaccine deaths are already accelerating and can't be hidden for much longer. The body bags are stacking up in the morgues and can't be ignored forever.

Thus, the almost certain window of opportunity for globalists to unleash their next wave of attacks on humanity is between today and early November.

That means we have fewer than 300 days remaining for the semi-reliable functioning of society as we know it.

What will you do with these few hundred remaining days?

Today's Situation Update podcast helps provide some analysis and answers: (note: My voice is still recovering, so apologies for the low-energy delivery...)
