me by a friend who is a former Facebook Fact Checker.

I can't say this on Facebook, but I feel it's important to say. **I was a Facebook Fact Checker.** And your conspiracy theories about Facebook, are more true than you realize.

I worked for a company named Appen. We are a 3rd party freelance contract company. **A few years ago Facebook approached us with an offer. Zuckerberg couldn't legally censor people on his platform because he told congress that he was an open forum. So, he uses several 3rd party companies to "Fact Check", and otherwise censor, information.**

Justin Trudeau has been taking action in Canada, China, and America, to prepare us for the Great Reset, and by us, I refer to civilians. Part of this process is to work with Zuckerberg and Dorsey to restrict the flow of information, and *to push the statutes of the Reset into peoples minds: repetition is the key here.*

We coordinate our efforts with a company in India, from our base in Canada, to provide our censorship services to Facebook. A lot of this information, you probably already guessed. But here's what you might not have known

We have specific directives on what to fact check and how to fact check. I'm going to list off a couple of these directives:

- 1) First off, **primarily conservative and right leaning posts on Twitter and Facebook make it to our service.**
- 2) **Left leaning posts are to be ignored and never manually flagged, it doesn't matter if it violates TOS or even federal law. If**

run around and nothing can be done. It's worked so far.

3) Zuckerberg created a program that feeds posts automatically into our service, it analyzes content in posts, searching for common images and lines of text, and if it matches any of our guidelines it gets automatically flagged and entered into our system to be "Fact Checked". So we don't just go looking for conservative posts, Zuckerberg sends them to us with his automatic program.

4) If there are multiple ideas in a conservative post, only 1 of them needs to be potentially disputable. We are to flag an entire article as disputed/false/discredited/untrue/etc even if there's only 1 idea that's not completely confirmed.

5) Even ideas that are confirmed, don't matter unless it's a left-leaning idea. What this translates to is as long as we all push the same idea, what we say becomes truth. That's standard psychology, and Americans are the easiest to manipulate with this. The only thing making it difficult is their freedoms that are not common in most countries around the world, which forces us to deal with America in a different way.

6) When we write articles for Politico, NYT, etc we are allowed to mark a title or article as true as long as at least 3 of the core ideas in the article or post are potentially true. *Keyword here is potentially, it can be completely false, but as long as we can cite a source that argues in our favor, we can confirm it 100% true.* The inverse is also true, if we can find even 1 source that dictates something to be potentially false, we can mark the entire article/post.

7) We write articles, and then cite our own articles as evidence.

writing the articles for dozens of websites, news media, and mass media. This isn't unique to America, we've done this in countries around the world for a very long time.

8) We only allow members to join us if they pass a test, this test is an opinion based survey, however, they must answer all left leaning, or they are not allowed to join, we wont be diluted.

9) This part I cannot confirm, but I am suspicious that China has more to do with this than just their involvement with Canada, but again, I can't confirm that, thats just my personal theory because we're not allowed to say anything negative in our business chats about China's government.

10) This is all preparation for the Great Reset, by getting Trump out, because he opposed the idea. Biden has agreed to go full on into it, which is why he's been getting such a big hand from Facebook and Twitter, however, it's much bigger than just that. In our new world order, we'll control not just national news, but global news. By controlling the global narrative, we control what information you're allowed to know and what you're allowed to think.

11) There are contingencies in place, Trump cannot win. We have members of Congress who are part of this, and soon the President and VP.

12) If a Civil War breaks out, it will be according to our plan. We hope for it, and we tried to use Race to spark it in America, if that doesn't work, ISIS is on stand by for when Biden is in office. This was determined along time ago, or so i'm told.

13) I no longer work for this company. I registered with them using a fake identity.
